#### **OUR HISTORY**

Our origins trace back to the 1930s and the floor of the London Stock Exchange.

From these early beginnings, TAM is now an award-winning institutional investment expert providing clients with both onshore and offshore investment services.

We understand that every investor is different which is why we have developed a comprehensive range of model portfolios and bespoke solutions to help you meet your investment goals.

Our innovative approach is why we have consistently won awards for our high level of service and expert investment solutions.

Working closely with you and your adviser we create an investment solution aimed at meeting your long-term investment goals and objectives.

By delegating the day-to-day management of your investments to our team of investment experts you will no longer need to make decisions about which investments to hold, or when to buy or sell assets; we will take care of this for you.

By constantly monitoring financial markets, economic trends and conducting diligent research on each investment, we are able to react quickly to changing market conditions to ensure your portfolio remains in line with your individual requirements.

You have the flexibility to invest in multiple currencies and can access our solutions through various tax-efficient structures such as pensions, trusts and insurance policies.

## A GLOBAL AND DIVERSIFIED APPROACH

We understand that you require a global perspective when investing. This ensures the broadest opportunity set to identify investments we believe will perform well in every economic environment.

#### Diversification = A Key Pillar for Risk Reduction

Building a diversified portfolio is an important aspect of our risk management process and ensures you enjoy the benefits of rising markets, and importantly, protection for your portfolio during times of market volatility.

Our portfolios are diversified by asset class, geographic region, strategy and fund manager. Below is an an example allocation within a balanced-risk portfolio.

#### **FLEXIBILITY**

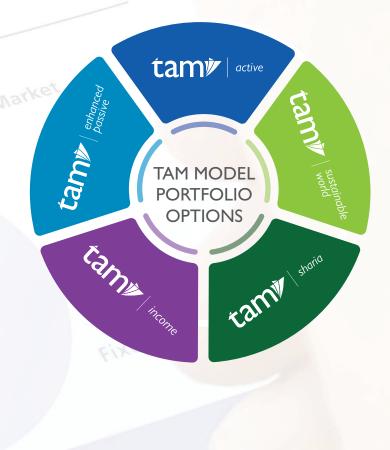

You have the option of many traditional and thematic investment strategies each available in multiple currencies.

You maintain the freedom to mix-and-match the portfolios and change their allocation whenever you require.

If your circumstances or risk appetite change you have the flexibility to switch seamlessly between strategies.

#### Have access to your money when you want it:

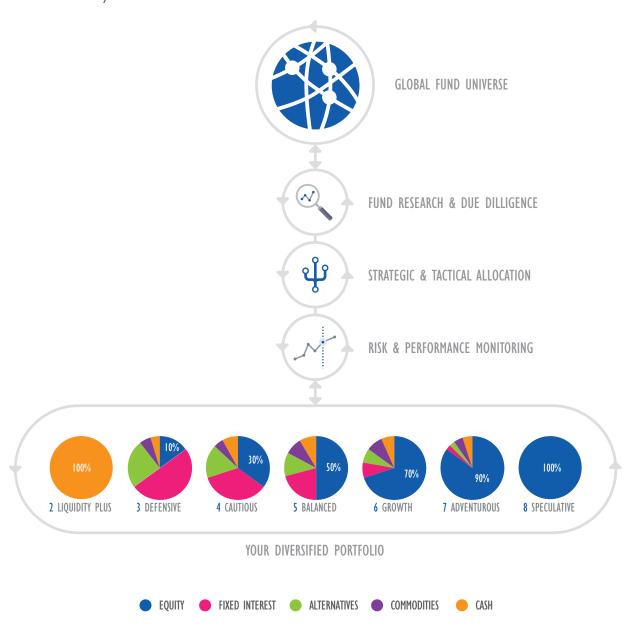

All our model portfolios offer daily liquidity with no lock-in periods or redemption penalties.

## DYNAMIC INVESTMENT PROCESS

Markets are forever changing so we are continuously anticipating and adapting.

Based on your investment objective and risk profile, long-term strategic allocations are determined, and short-term tactical positions are added to react to changes and dampen market volatility.

## HOW SAFE IS MY MONEY?

By partnering with the most respected counterparties, TAM provides clients with some of the strongest asset protection available presently in the industry.

The security of your investment is paramount, this is why we do not seek to hold client assets directly and instead investments are typically held on TAM's behalf with recognized custodians.

Our principal custodian BNY Pershing is based in the United Kingdom and regulated by the Financial Conduct Authority (FCA). As part of BNY, one of the world's largest and strongest financial institutions in the world, they are unparalleled in terms of their size, security and experience in custody and clearing services.

TAM is fully regulated to ensure the highest level of investor protection.

# THE REASSURANCE OF A DEDICATED INVESTMENT TEAM MANAGING YOUR PORTFOLIO

We have brought together a team of highly regarded investment professionals and research analysts to manage every aspect of your investment. Our team is always available to answer any questions you may have.

We are entering a new chapter in markets and economics, in which inflation, interest rates and active management of client assets will all become more important factors.

Volatility should remain a core part of this new market, as will investment risk, and it is key to embrace these factors as opportunities with which to take advantage of for clients. As we face up to the pressures of a changing landscape and the challenging yet rewarding onus of Consumer Duty, we look forward to this new chapter of investment management and the all-important goal of being stewards of our clients' capital.

## LONG-TERM TRACK RECORD

We must always recognise that past performance is never a guarantee of future performance, although we believe it can act as a guide and help demonstrate whether any manager, in this case TAM, actually implements the strategies and risk controls they proport.

Since the launch of our TAM Active range of model portfolios we have followed the same edict of prioritising capital preservation and capital growth to generate positive medium and long-term gains for our clients.

# REVIEW YOUR PORTFOLIO WHENEVER AND WHEREVER YOU ARE

Our online platform remains one of the most innovative and informative in the industry.

Whether you are after a quick valuation, customised report or in-depth analysis of your portfolio, it's only a click away.

#### COST EFFECTIVE

"Look after the pennies and the pounds will look after themselves"

This may be an old saying but ensuring the cost of managing your portfolio is as low as possible is vital.

Our investment management fees are transparent and some of the lowest in the industry. Additionally, we have access to some of the lowest cost investments for your portfolio which are usually reserved for institutional investors. This all ensures that we keep your overall portfolio cost as low as possible.

## DESIGNED TO BE ACCESSIBLE

We created our portfolios to be as accessible as possible.

As well as being available as a standalone service our portfolios can be held within a range of efficient structures, many of which may offer tax advantages that your adviser will be able to provide guidance on:

**INDIVIDUAL SAVINGS ACCOUNTS** 

**TRUSTS** 

**FOUNDATIONS** 

OFFSHORE BOND ACCOUNTS

LIFE INSURANCE PRODUCTS

SELF INVESTED PERSONAL PENSIONS (SIPP)

QUALIFYING RECOGNISED OVERSEAS PENSION SCHEMES (QROPS)

## OPPORTUNITIES TO GIVE BACK

We are delighted to offer clients two initiatives that enable you to benefit our society and the environment.

You Give We Give provides our direct TAM GIA and ISA investors with the opportunity to donate up to 20% of your annual portfolio gain to a charity entirely of your choice. We will match that donation with an equal percentage from our annual management fee, and your financial adviser can also join us by donating the same percentage from their ongoing fee.

You have shown a growing appetite to contribute meaningfully towards a better society and give back from your investments, and we are pleased to offer a simple and effective initiative that enables you to do just that.

Together, we have raised over £610,000 for a wide range of local and international causes. We are delighted with the positive impact we have had to date and look forward to continuing to give back with you in the many years to come.

We are a proud certified Carbon Neutral and Carbon Reduced Organisation, achieved by offsetting our annual carbon footprint, which we are reducing every year.

We invite you to join us in our sustainability mission by participating in the Client Carbon Footprint Commitment where you can offset your carbon footprint every year you are invested with us.

We understand the importance of tackling climate change and sustaining our environment for future generations, a key concern we know we share with our clients. You have shown an increased demand to reduce the impact of your investments on the environment and we are pleased to provide you with a material solution.
