

ADVENTUROUS GBP PORTFOLIO

31 MARCH 2021

OBJECTIVE

In contrast to our portfolios of active investment products, this TAM Passive portfolio comprises solely of passive investment vehicles (such as unit trusts and exchange traded funds) that simply track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, exchange traded commodities and cash. Property may feature within the alternatives classification.

Passive Adventurous seeks to generate strong capital growth over the longer term and can experience frequent and higher levels of volatility than Passive Growth. The portfolio will have a large exposure to equities - typically comprising of 85% equity and 15% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.
