

BALANCED GBP PORTFOLIO

30 SEPTEMBER 2021

OBJECTIVE

In contrast to our portfolios of active investment products, this TAM Passive portfolio comprises solely of passive investment vehicles (such as unit trusts and exchange traded funds) that simply track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, exchange traded commodities and cash. Property may feature within the alternatives classification.

Passive Balanced seeks to generate capital growth over the medium to longer term, with the aim of riding out short-term fluctuations in value. The portfolio will have a more balanced approach to equity exposure compared to Passive Growth - typically comprising of 50% equity and 50% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.

CURRENT ASSET ALLOCATION

* Property may feature within the alternatives classification.
