

OBJECTIVE

In contrast to our portfolios of active investment products, this TAM Passive portfolio comprises solely of passive investment vehicles (such as unit trusts and exchange traded funds) that simply track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, exchange traded commodities and cash. Property may feature within the alternatives classification.

Passive Cautious seeks to generate modest capital growth higher than bond based returns over the short to medium term by employing a more cautious investment strategy than Passive Balanced. The portfolio will have a modest approach to equity exposure - typically comprising of 35% equity and 65% non-equity - though weightings may deviate within set parameters, allowing our managers to react to market conditions.
