

## GROWTH GBP PORTFOLIO

31 MARCH 2022

## OBJECTIVE

In contrast to our portfolios of active investment products, this TAM Passive portfolio comprises solely of passive investment vehicles (such as unit trusts and exchange traded funds) that simply track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, exchange traded commodities and cash. Property may feature within the alternatives classification.

Passive Growth seeks to generate higher capital growth over the medium to long-term by employing a more dynamic investment strategy. The portfolio will have a higher exposure to equities compared to Passive Balanced - typically comprising of 70% equity and 30% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.

## CURRENT ASSET ALLOCATION

\* Property may feature within the alternatives classification.

## GEOGRAPHICAL EXPOSURE
