

**OBJECTIVE**

This active Sharia portfolio comprises Sharia-compliant investment vehicles including unit trusts, mutual funds and exchange traded funds (ETFs), whose managers aim to outperform their respective markets. Asset classes you could find in this portfolio are Sharia equities, Sukuk bonds, Sharia approved commodities and cash.

Sharia Adventurous seeks to generate strong capital growth over the long-term (7 years or more) and can experience frequent and higher levels of volatility than Sharia Growth. The portfolio will have a large exposure to equities - typically comprising 90% equity and 10% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.

TAM RISK RATING: **HIGH**
