

OBJECTIVE

This active Sharia portfolio comprises Sharia-compliant investment vehicles including unit trusts, mutual funds and exchange traded funds (ETFs), whose managers aim to outperform their respective markets. Asset classes you could find in this portfolio are Sharia equities, Sukuk bonds, Sharia approved commodities and cash.

Sharia Defensive seeks to generate modest returns higher than cash in the bank over the short to medium term (3 to 5 years or more) with potential for consistent though constrained capital growth. The portfolio has a more defensive approach to equity exposure compared to Sharia Cautious - typically comprising 10% equity and 90% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.

TAM RISK RATING: **LOW**
