

TAM launches fully regulated DFM operation in Europe

13 July 2020

TAM Asset Management's (TAM) European entity, TAM Europe Asset Management (TAM Europe), has today been granted a full European Discretionary Fund Managers Licence by Spain's [Comisión Nacional de Mercado de Valores \(CNMV\)](#).

TAM has been operating in Europe through passporting for around 15 years with a proven long-term performance record and strong MiFID II-compliant culture. The company's strong IT backbone and web portal delivery is considered one of the strongest available in the industry.

TAM Europe, passported pan-Europe, is TAM's solution to the Brexit problem, and a strong step towards the growth of the TAM Group. Tom Worthington, Business Development Manager at TAM Europe said, "It is a boots on the ground operation, with a fully-functioning office housing Investment, Administration and Compliance teams, demonstrating commitment of both capital and personnel".

TAM Europe are already forming strong relationships with IFA groups throughout Europe, recently embarking on a platinum partnership with The Federation of European Independent Financial Advisers (FEIFA). The TAM Group's white label and fintech operations have proven valuable solutions to the modern problems that IFAs have begun to encounter in the European market place, such as regular savings.

TAM has a strong risk management culture and competitively priced range of risk-graded Mainstream (0.25% AMC), and ESG (0.4% AMC) investment portfolios. Worthington said, "TAM Europe are keen to highlight the long-term ESG investment offering. We believe that ESG investing is the new normal, intensified by the recent COVID-19 pandemic, it has become a mainstream approach in the UK and will take on a prominent footing in Europe."

About TAM Asset Management:

TAM Asset Management (TAM) is an award-winning discretionary investment manager founded in 2000 by CEO, Lester Petch. TAM is majority owned by their management team of expert investment professionals, currently managing assets of over £400m. With UK, European and International operations, TAM offer the flexibility of both onshore and offshore investment management to clients around the world. TAM believes that every investor should have access to actively managed, diversified investment portfolios regardless of their level of wealth and as such have designed and developed a wide range of services for advisers to offer their varying clientele, including ESG and Sharia options.

TAM's aim is simple; to maximise performance and outperform their benchmarks with minimal risk. They have decades of experience in providing forward-thinking investment management solutions to clients, demonstrating performance across different market cycles and conditions, giving them the depth of knowledge and understanding needed to quickly respond to ever-changing market and regulatory conditions.
